FREE PRINTABLE · EASY TCG RULES

All Trainers Battle

Easy TCG rules for every age and ability. Play with the Pokémon cards you already have — little ones can play with a helper!

STEP 1

Pick your difficulty

EASY ★

HP Showdown

Flip a card, power up, biggest HP wins. Great for first-timers and pre-readers.

About 10–20 min

MEDIUM ★★

Attack Battle

Take turns attacking until a Pokémon's HP hits zero. Some counting.

About 15–30 min

CHALLENGE ★★★

Bench Battle

Energy costs, a Bench, and Weakness. The best practice for the official game.

About 20–45 min

STEP 2

Pick your game length

5
Quick
5 Pokémon each

10
Classic
10 Pokémon each

∞
Marathon
as many as you like

YOU NEED

Supplies

- ☐ Pokémon cards — your stack size
- ☐ Energy cards — about half as many
- ☐ Trainer cards — optional, Easy only
- ☐ Dice, coins, or paper — Medium & Challenge
- ☐ Scorecard — included

YOUR CARD

Know the numbers

HP — big number, top right

Type symbol — next to HP

Attacks — damage number on the right

Weakness — near the bottom

EVERY VERSION

Set up

1. Each player builds a **Pokémon stack** for your game length.
2. Each player makes an **Energy pile** — about half as many Energy as Pokémon. More is fine!
3. Playing Easy? Add 1 **Trainer card** for every 5 Pokémon (optional).

Fan-made, not affiliated with Nintendo or The Pokémon Company. Please don't sell.

EASY ★ · START HERE

HP Showdown

1. Everyone puts **one Pokémon** face up at the same time. Choose your card, or shuffle and flip the top one.
2. **Power up** (optional): add 1 Energy card from your pile.
3. **Trainer boost** (optional): play a Trainer card. Each one is used once — no reading needed.
4. Add it up. **Highest HP wins the round!** Tie? Everyone high-fives.
5. Used cards go into your own "done" pile. **Everyone keeps their own cards.**

+20	+40	+30
any Energy	Energy matching the type symbol	Trainer card

Winning: When the stacks run out, whoever won the most rounds is the **All Trainers Champion!**

MEDIUM ★★ · READY FOR MORE?

Attack Battle

1. Each player puts one Pokémon in their **battle spot**.
2. **Take turns.** On your turn, attach 1 Energy to your Pokémon. Energy stays attached.
3. **Attack!** Pick an attack and do that much damage. Skip extra words. No number? It does 10.
4. Subtract the damage from the other Pokémon's HP. Use dice, coins, or paper.
5. HP hits 0? **Knocked out!** Its Trainer brings out the next Pokémon.

Bonuses: +10 damage with matching Energy attached. Double damage if the other Pokémon's *Weakness* is your type.

Winning: First to knock out 3 Pokémon (Quick), or all of the other player's Pokémon (Classic & Marathon).

Fan-made, not affiliated with Nintendo or The Pokémon Company. Please don't sell.

CHALLENGE ★★★ · ALMOST THE REAL GAME

Bench Battle

Plays like Medium, with three real-game skills added. Matching Energy powers your attacks, so there's no +10 bonus.

1. Put one Pokémon in your **battle spot** and up to 3 more on your **Bench**, face up beside it.
2. On your turn, attach 1 Energy to **any** of your Pokémon — in battle or on the Bench.
3. **Switch** (optional): once per turn, swap your battle Pokémon with one on your Bench. Energy stays with each Pokémon.
4. **Pay the Energy cost.** Each attack shows symbols on its left. Your Pokémon needs that many Energy attached, and colored symbols need matching Energy. The plain star can be any Energy.
5. Attack and use **Weakness** (double damage). Knocked out? Move a Bench Pokémon into battle, then refill your Bench from your stack.

Winning: First to knock out 3 Pokémon (Quick), or all of the other player's Pokémon (Classic & Marathon).

Ready for the official game? Find the official Pokémon TCG rules and Pokémon's free **Alternative Play Handbook**, full of fun ways to play, at **playprep.app/battle**.

MIX IT UP

Tips & variations

Team Up: everyone works together against one big "Boss" Pokémon picked by a grown-up. Add up the team's damage until it's knocked out. Nobody loses!

Favorite Color Bonus: if your Pokémon is your favorite color, it gets +30 HP.

No-Reading Mode: just match symbols and compare numbers. A helper can point to the HP and count along.

Helping Hands: a card stand, playmat, or sleeved cards make holding and flipping easier. Players can point and let a helper place the card.

Big voices: use battle voices and silly sound effects, and let players make up their own attack names.

Build confidence: ask "Why do you think your Pokémon is strong?" Celebrate great matches, not just wins.

Fan-made, not affiliated with Nintendo or The Pokémon Company. Please don't sell.
