HP Showdown

1. Everyone puts **one Pokémon** face up at the same time. Choose your card, or shuffle and flip the top one.
2. **Power up** (optional): add 1 Energy card from your pile.
3. **Trainer boost** (optional): play a Trainer card. Each one is used once — no reading needed.
4. Add it up. **Highest HP wins the round!** Tie? Everyone high-fives.
5. Used cards go into your own "done" pile. **Everyone keeps their own cards.**

Winning: When the stacks run out, whoever won the most rounds is the **All Trainers Champion!**

MEDIUM ★★ · READY FOR MORE?

Attack Battle

1. Each player puts one Pokémon in their **battle spot**.
2. **Take turns.** On your turn, attach 1 Energy to your Pokémon. Energy stays attached.
3. **Attack!** Pick an attack and do that much damage. Skip extra words. No number? It does 10.
4. Subtract the damage from the other Pokémon's HP. Use dice, coins, or paper.
5. HP hits 0? **Knocked out!** Bring out your next Pokémon.

Bonuses: +10 damage with matching Energy attached. Double damage if the other Pokémon's *Weakness* is your type.
Trainer card: on your turn, play one to heal your Pokémon 30 HP (up to its starting HP).

Winning: First to knock out 3 Pokémon (Quick), or all of the other player's Pokémon (Classic & Marathon).

Fan-made, not affiliated with Nintendo or The Pokémon Company. Please don't sell.

CHALLENGE ★★★ · ALMOST THE REAL GAME

Bench Battle

Plays like Medium, with three real-game skills added. Matching Energy powers your attacks, so there's no +10 bonus. Trainer cards still heal 30 HP.

1. Put one Pokémon in your **battle spot** and up to 3 more on your **Bench**, face up beside it.
2. On your turn, attach 1 Energy to **any** of your Pokémon — in battle or on the Bench.
3. **Switch** (optional): once per turn, swap your battle Pokémon with one on your Bench. Energy stays with each Pokémon.
4. **Pay the Energy cost.** Each attack shows symbols on its left. Your Pokémon needs that many Energy attached, and colored symbols need matching Energy. The plain star can be any Energy.
5. Attack and use **Weakness** (double damage). Knocked out? Move a Bench Pokémon into battle, then refill your Bench from your stack.

Winning: First to knock out 3 Pokémon (Quick), or all of the other player's Pokémon (Classic & Marathon).

Ways to play

🤝 Team Up
Everyone vs. one big "Boss" Pokémon picked by a grown-up. Add up the team's damage until it's knocked out. Nobody loses!

🎨 Favorite Color Bonus
Your Pokémon is your favorite color? +30 HP!

👀 No-Reading Mode
Match symbols, compare numbers. A helper can point and count along.

✋ Helping Hands
Use a card stand or playmat, or point and let a helper place the card.

FOR HELPERS (AND PARENTS!)

Tips to make it magic

- Big battle voices and silly sound effects!
- Grab stuffed animals or action figures and act out the battles.
- Ask "Why is your Pokémon strong?" to build storytelling and confidence.
- Let players name their own attacks. Celebrate great matches, not just wins.

Fan-made, not affiliated with Nintendo or The Pokémon Company. Please don't sell.
