

All Trainers Battle

Card Games

3+	< 5m	10–45m	Indoor
AGES	PREP	PLAY	ENV

👥 2+ participants · Counting · Turn-Taking · Matching · Fine Motor

An easy card battle you can play with the Pokémon cards you already have. Pick a difficulty and a game length, power up with Energy and Trainer cards, and battle for the title of All Trainers Champion. Made for every age and every ability — little ones can play with a helper.

STEP 1 · PICK YOUR DIFFICULTY

EASY ★
HP Showdown
Flip a card, power up, biggest HP wins. Great for first-timers and pre-readers.
About 10–20 min

MEDIUM ★★
Attack Battle
Take turns attacking until a Pokémon's HP hits zero. Some counting.
About 15–30 min

CHALLENGE ★★★
Bench Battle
Energy costs, a Bench, and Weakness. The best practice for the official game.
About 20–45 min

STEP 2 · PICK YOUR GAME LENGTH

5 **Quick** — 5 Pokémon each

10 **Classic** — 10 Pokémon each

∞ **Marathon** — as many as you like

SUPPLIES NEEDED

- ☐ **Pokémon cards** — your stack size
- ☐ **Energy cards** — about half as many
- ☐ **Trainer cards** — optional
- ☐ **Dice, coins, or paper** — Medium & Challenge
- ☐ **Scorecard** — included
- ☐ **Card stand or playmat** — optional

KNOW YOUR CARD

HP
Big number, top right. How strong it is.

Type symbol
Next to HP. Match it with Energy!

Attacks
Middle. Damage number on the right.

Weakness
Bottom. That type hits twice as hard.

INSTRUCTIONS

EASY ★ HP Showdown

Each player builds a stack of Pokémon (5, 10, or more) and an Energy pile. Optional: 1 Trainer card for every 5 Pokémon.

1. Everyone puts **one Pokémon** face up at the same time. Pick your card, or shuffle and flip the top one.
2. **Power up** (optional): add 1 Energy card from your pile.
3. **Trainer boost** (optional): play a Trainer card. Each Trainer card is used once — no reading needed.
4. Add it up. **Highest total HP wins the round!** A tie? Everyone high-fives.
5. Used cards go into your own "done" pile. Everyone keeps their own cards.

+20 HP	+40 HP	+30 HP
any Energy	Energy that matches the type symbol	Trainer card

Winner: when the stacks run out, whoever won the most rounds is the All Trainers Champion!

MEDIUM ★★ Attack Battle

Same stacks and Energy piles. Grab dice, coins, or paper to track damage.

1. Each player puts one Pokémon in their **battle spot**.
2. **Take turns.** On your turn, attach 1 Energy to your Pokémon. Energy stays attached.
3. **Attack!** Pick one of your Pokémon's attacks and do that much damage. Skip any extra words. No number? It does 10.
4. Subtract the damage from the other Pokémon's HP. Bonuses: **+10 damage** with matching Energy attached, and **double damage** if the other Pokémon's Weakness is your type.
5. When a Pokémon's HP hits 0, it's **knocked out**. Its Trainer brings out the next Pokémon.

Winner: first to knock out 3 Pokémon (Quick), or all of the other player's Pokémon (Classic & Marathon).

CHALLENGE ★★★

Bench Battle

Plays like Medium, with three real-game skills added. Matching Energy is how you power attacks, so there's no +10 bonus here.

1. Put one Pokémon in your **battle spot** and up to 3 more on your **Bench**, face up beside it.
2. On your turn, attach 1 Energy to **any** of your Pokémon — battle spot or Bench.
3. **Switch** (optional): once per turn, swap your battle Pokémon with one on your Bench. Energy stays with each Pokémon.
4. **Pay the Energy cost.** Each attack shows symbols on its left. Your Pokémon needs that many Energy attached, and colored symbols need matching Energy. The plain star symbol can be any Energy.
5. Attack, subtract damage, and use **Weakness** (double damage). Knocked out? Move a Bench Pokémon into battle, then refill your Bench from your stack.

Winner: first to knock out 3 Pokémon (Quick), or all of the other player's Pokémon (Classic & Marathon). Ready for more? Try the official game's Prize cards and Evolution next.

TIPS & VARIATIONS

Team Up: everyone works together against one big "Boss" Pokémon picked by a grown-up. Add up the team's damage until the Boss is knocked out. Nobody loses!

Favorite Color Bonus: if your Pokémon is your favorite color, it gets +30 HP.

No-Reading Mode: just match symbols and compare numbers. A helper can point to the HP and count along.

Helping Hands: a card stand, a playmat, or sleeved cards make holding and flipping easier. Players can point to a card and let a helper place it.

Use big battle voices and silly sound effects — and let players make up their own attack names.

Ask "Why do you think your Pokémon is strong?" to build storytelling and confidence. Celebrate great matches, not just wins.
